FLOOR PADS

OUR FLOOR PADS

Our floor pads provide the best value in floor care and maintenance for virtually every application. They won't bleed when used with commercial cleaners and hold more cleaning solutions. Pad performance reduces heat and provides complete contact with uneven floors ensuring a consistent performance during the life of the pad.

Floor pads are used in the commonly used machines in janitorial maintenance making usage and conversion easy

Designed for the Professional in the institutional, government and commercial floor cleaning market, providing the contractor with solutions in all tiers to meet all job requirements.

Features engineered with the highest quality filaments, open web structure, uniform grain distribution throughout the pads, and comes with a great range of industry-standard sizes in each category.

 **PROTECTING YOUR FLOORS**

STRIPPING PADS

TURBOSTRIP SEGMENTED ROTARY PADS

- Turbostrip segmented rotary pads provide operators the ultimate cleaning performance in floor stripping
- Features 24 polygonal segments with overlapped angular edges that bite into floor wax aggressively
- Ultimate wax removal, less loading, longer wear
- Up to 5x faster finish removal than a standard strip pad
- Dramatically reduces excess floor wax on strip pads
- Pad life increases while the floor stripping work is completed faster
- Recommended for use on machines up to 350 rpm
